OR

6. Discuss in detail about Dynamic Host Configuration Protocol

UNIT-IV

7. Explain the following:
   a) Indirect TCP and
   b) Snooping TCP

OR

8. Write short notes on the following in TCP
   a) Congestion control and
   b) Slow start

UNIT-V

9. Define WAP and explain in detail about its architecture

OR

10. Explain the following:
    a) Wireless LAN protocol architecture
    b) WAP Datagram Protocol

[06/II S/213]
UNIT-I

1. What is the motivation for specialized MAC? Explain in detail 12

OR

2. Explain about Code Division Multiple Access and compare SDMA, TDMA, FDMA and CDMA 12

UNIT-II

3. Explain in detail about Handover in GSM 12

OR

4. Define Mobile Ad-hoc Networks and explain in detail about routing in Mobile Ad-hoc networks 12

UNIT-III

5. What is the purpose of Mobile IP? Explain about Tunneling and Encapsulation in Mobile IP 12
6. Discuss in detail about Dynamic Hostd configuration Protocol

UNIT-IV

7. Explain the following:
   a) Indirect TCP and
   b) Snooping TCP

OR

8. Write short notes on the following in TCP
   a) Congestion control and
   b) Slow start

UNIT-V

9. Define WAP and explain in detail about its architecture

OR

10. Explain the following:
    a) Wireless LAN protocol architecture
    b) WAP Datagram Protocol
UNIT-I
1. What is the motivation for specialized MAC? Explain in detail 12

OR

2. Explain about Code Division Multiple Access and compare SDMA, TDMA, FDMA and CDMA 12

UNIT-II
3. Explain in detail about Handover in GSM 12

OR

4. Define Mobile Ad-hoc Networks and explain in detail about routing in Mobile Ad-hoc networks 12

UNIT-III
5. What is the purpose of Mobile IP? Explain about Tunneling and Encapsulation in Mobile IP 12
